# What We do

- Aligning Tech Solutions with Business Goals
- Building Flexible and Resilient Infrastructure
- Empowering Business and Employees
- Driving Effectively Manageable Investment
- Maintaining Business Continuity

# Core Differentiators

- Vetted Technology Partners Including Microsoft, AWS, GCP
- Adopting Proactive Approach to Reduce Risk
- Delivering Holistic and Cohesive Services.
- Proven Record of Success
- Understanding Saudi Market Needs
- Aligned and Compliant with Saudi Vision 2030

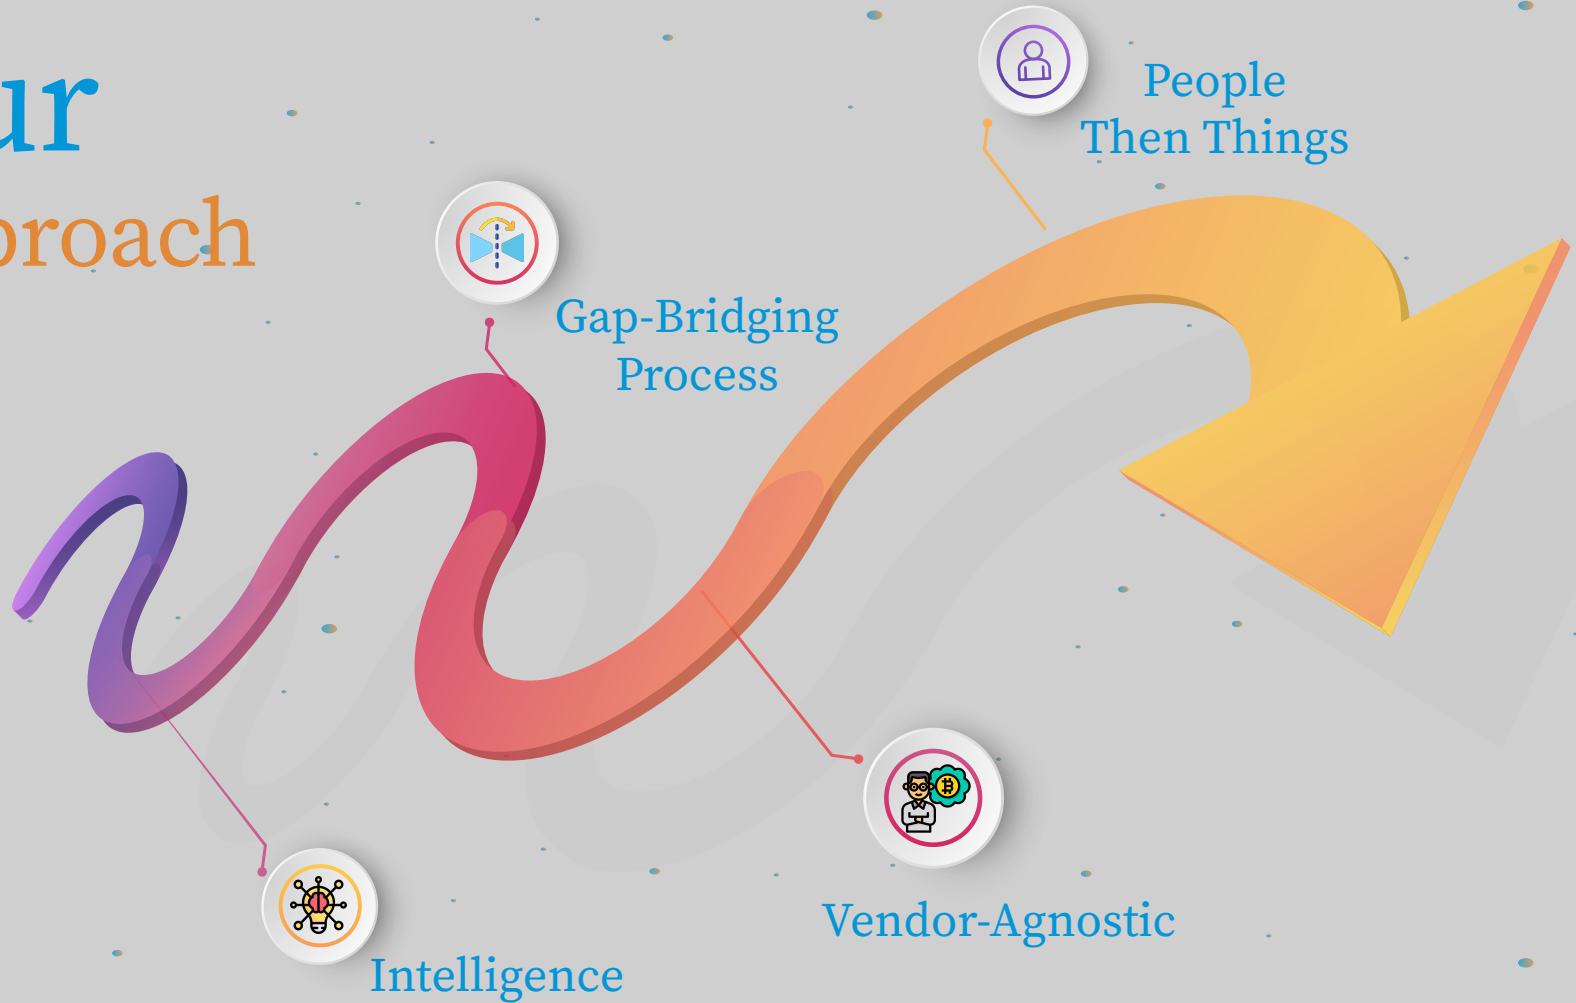

# Why Choose Us

- Having deep understanding of the latest technologies and business needs
- Building partnerships with tech hyperscalers that empower businesses with the latest capabilities.
- Delivering a spectrum of solutions that cover organizations from infrastructure to business continuity.
- Crafting customized roadmaps that utilize technology to drive tangible results and long-term success.
- Adopting a proactive approach starting from planning and assessment, through prevention and preparation, up to disaster recovery planning.
- Being a result-obsessed team that translates transformations into records.

# Our Approach

# Our Comprehensive services

Delivering efficient and effective plan for the cloud adoption journey

Consulting and Assessment

Deployment and Migration

Transitioning workloads and applications from anywhere into the cloud via proven processes and tools.

Helping organizations migrate from legacy systems adopt modernization, stimulating business processes for efficiency.

Modernization and Innovation

Managed Services

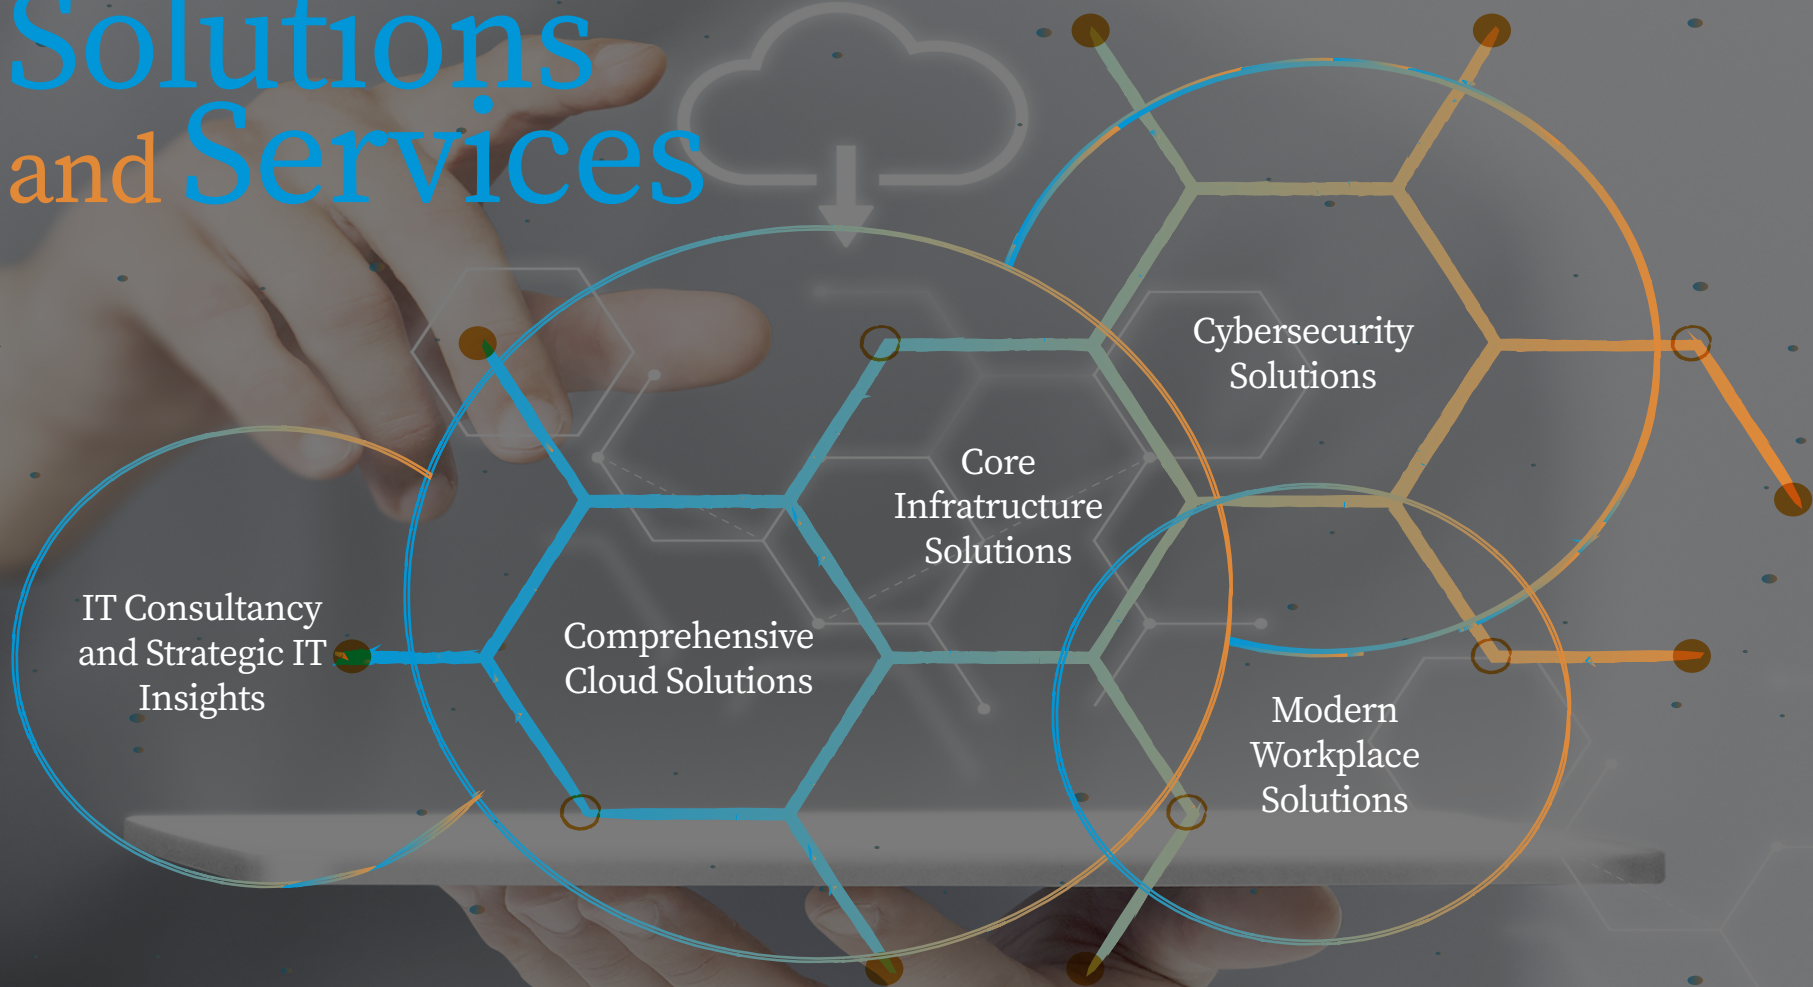

Managing information and business workloads and delivering ongoing services that help businesses focus on business core.

Ensure your business operates smoothly and efficiently by gaining reliable and timely support. We deliver Service Level Agreement (SLA) that outlines the standards and expectations for the services we deliver.
